2022

CareerFoundry

Full stack web development

Completed projects which can be found on my projects page of my portfolio website, utilizing front-end and back-end skills and technologies. Learned good work practices including commenting code and detailed documentation.

2019

Dmacc

Electrical construction trades diploma

2018

Valley High School

High School Diploma

Experience

Van Meter December 2019- Present

Traveling commodities team member

- Created new methods of inventory management, which extended the inventory capacity until the branch expansion 6 months later.
- Analyzed the output levels of different types of wire, reducing our setup times, increasing efficiency, and allowing our team to process more material per day.
- Made an excel document for asset management to track any incoming and outgoing assets to reduce the number of false charges given to customers.
